### Unequal Taxation.

Controller Hallock calls attention in his report to the vicious system of assessing property, and it should command the attention of the Legislature and taxpayers alike. Washoe county pays taxes on property valued at \$4,657,238, and here we will say that if properly assessed it should be at least \$10,000,000, while Storey county only pays on \$1,884,248. The Commissioners of Storey county met February 6, 1888, and from the Enterprise of that date the Controller quotes as follows:

A regular meeting held yesterday morning. \* \* \* Adjourned until February 11, when a special meeting will be held to fix the tax levy for 1888. The Commissioners have not yet determined the rate. They are undecided as yet whether to reduce it one-half, or place the levy at five per cent, and cut down the assessed valuation to one-half the figures of last year. The majority are in favor of the latter course.

The different classes of property in Storey were put down for taxable purposes at the following valuation: Real estate at \$227,728, personal property at \$427,571, and mining and mill property at \$859,050. It will be seen that cutting down the valuation of property one-half and increasing the tax levy 50 per cent, that the State is defrauded out of \$16,958.23, which Storey county saves at the expense of the other counties of the State. To illustrate: On property the true cash value of which is \$1,000,000, the State tax would amount to \$9,000, and the county tax, at one-half the maximum rate, 75 cents, would amount to \$7,500. But should the \$1,000,000 valuation be reduced to \$500,000, the State tax would be but \$4,500, and the county tax, at the maximum rate, \$1.50, would be the same as upon the true valuation at 75 cents, namely, \$7,500. Thus the county would evade payment of half the revenue due the State from that source, and a given amount of revenue being necessary for State purposes, would shift the obligation so evaded on to those poorer counties not in condition to make such reduction in valuations. This is all wrong, and the Legislature should pass a bill correcting the evil.

When the Assessors and County Commissioners evade the law, for the law provides that property shall be assessed at its true cash value, by such flagrant proceedings as those enacted by the officers of Storey county, it is time to call a halt. We would advocate the forming of a State Board of Equalization to put a stop to such a vicious system, for the making of one and of another is not calculated to make the tax payers at large feel very good natured. There is no reason why Storey county should pocket something over \$16,000 at the expense of the other counties.

The Annexation Committee from the Legislature are going to Sacramento to confer with the California solons Sunday night. In this connection we will say that Nevada is not asking anything but what should, by all the laws of nature, in justice belong to her. If submitted to a vote of the people living in the district we ask to be ceded to us, it would be almost unanimous in favor of annexation, and we hope California will be magnanimous enough to give us the territory.

The San Francisco Alta seems to have the idea of allowing Nevada to have that part of California lying on the eastern slope of the Sierras. The above paper certainly does not reflect the sentiment on this subject entertained by the people of Alpine, Mono and Inyo counties, who are almost unanimously in favor of the transfer.

There were added to the already colossal railway system of the United States during the year 1888, 7,120 miles of railroad. Kansas continues in the lead in the extent of new mileage, as she has done for several years, with California second in last year's increase.

MR. LANGAN of the Assembly has introduced a bill defining "reasonable doubt," which provides that the definition as established by the act, and none other, shall be given by the courts in criminal actions in this State. This trespassing upon the judicial functions in this instance may be harmless of itself, other than in that it reflects upon the intelligence of the judiciary of Nevada. Reasonable doubt has been defined by our local and Supreme Courts about the same as Mr. Langan does in his bill. The presumption that the Legislature is better able to define legal terms than those who preside on the bench and have made the law a special study, is somewhat violent. As to what courts should give in charges to juries in any case, it is probably as well for the Legislature to let well enough alone.

THE great contest at the present session of the Pennsylvania Legislature promises to be the battle of the State Grange against the Chicago dressed beef syndicate. The Grange asserts that the introduction of Chicago beef into the markets of the State has killed the cattle-growing interests of the farmers and has entailed a loss of many millions of dollars in the depreciation of such property.

### Wasted Time.

Boston, Jan. 18.—I. H. Bromley will retire from the office of assistant to the President of the Union Pacific Railroad on March 1st. Bromley's duties have been chiefly in connection with an effort to procure a settlement of the questions between the company and the Government, it having been decided that no further efforts in this direction be made after the present Congress. In accepting his resignation, President Adams writes: "As you say the work you came here to do is practically accomplished so far as your part is concerned, we have not got a settlement with the Government, nor are we likely to get one, but the one of the press towards us has, through your exertions, been greatly moderated, and our case is fairly understood. I have no hope to be able to attempt anything of that sort in the short time left me. I have wasted four years in futile attempts at an honest settlement, and have no more years to give to a work which would in those years have been worth doing."

ARTHUR PARNELL Commission. London, Jan. 18.—A shock of earthquake was felt to-day in a portion of Leith Valley and West Edinburgh. No damage.

When the Parnell Commission met this morning R. T. Reed, M. P., one of the counsel for the Parnells, called the attention of the Court to a placard issued by the Sheffield Telegraph, on which was printed the words: "A League murder ring confession in open Court." Justice Hansen requested that the matter be embodied in an affidavit.

Captain Plunkett, Chief of the Cork police, testified that he knew of no report given to him by the non-payment of rents and resistance to execution, except that given by the Land and National Leagues. Matters have improved since the passage of the Coercion Act.

### Want Protection.

JACKSONVILLE, Fla., Jan. 18.—At a meeting of the Board of Trade yesterday the following resolution was passed: "That the interests of the orange growers of Florida demand protection against foreign growers of fruit, and our Senators and Representatives in Congress are requested to exert their efforts and influence to secure the passage of a law levying import duties of \$1 per box on two cubic feet capacity, or in that proportion, upon all oranges and lemons of foreign countries." This movement is being generally by the Board of Trade and other organizations throughout the State, irrespective of party.

### Governor West Stands Firm.

WASHINGTON, Jan. 18.—Governor West of Utah, made an argument before the Committee on Territories to-day, against the admission of Utah. He declared that Gentiles could not live there if the admission is granted. He wished the Democrats could see the folly of favoring such a course, as the admission would kill the party favoring it in all the other territories.

### Cigar-Makers' Strike.

New York, Jan. 18.—All the cigar-makers in forty Havana cigar manufacturers in this city struck to-day against the reduction of \$2 per 1,000, which the bosses made eighteen months ago. The strikers are mostly Cubans, whose work is all hand-made and brings the best prices in the market. Three firms have already yielded. Over 1,000 hands are out.

### More Arab Murders.

ZANZIBAR, Jan. 18.—During the attack on the German missionary station at Tugu the insurgents massacred four German missionaries, one of whom was a woman. Three missionaries, one a woman, fell into the hands of the Arabs and are held for ransom. The Admiral commanding the squadron landed a force at Dar Es Salaam for the purpose of garrisoning the place.

### Fire-Damp Explosion.

LONDON, Jan. 18.—There was an explosion of fire-damp to-day in the Hyde colliery near Manchester. Seven bodies have been taken from the mine and a hundred persons are still entombed. Twenty-five persons were killed.

### Going After Stanley.

LONDON, Jan. 18.—Thomas A. Stevenson, who has announced his intention of penetrating Africa in search of Henry M. Stanley, has started for Zanzibar.

## HAYTIAN MATTERS.

### Orange Growers of Florida Want Protection.

### LOSS OF A BRITISH SHIP.

### An Effort to Wreck the "Haytian Republic."

### BANK CASHIER ARRESTED.

### Some Grave Charges Against Platt of New York.

ASSOCIATED PRESS DISPATCHES TO THE GAZETTE.

### A Thin Explanation.

PORT AU PRINCE, Jan. 8.—The steamship Haytian Republic was run into by the Haytian gunboat Voltaire on the night of December 20th, inflicting but slight damages to either vessel. The Haytian gunboat was entering the harbor at full speed and could have steamed to her anchorage without any change of course, but when within 200 yards of the Haytian Republic her helm was suddenly put to port and remained so until she struck the vessel. Then her engines were reversed and she backed 200 yards and again steamed at full speed until within a short distance from the Haytian Republic, when her course was slightly changed, just missing her. The gunboat was hailed both times, but no answer was made nor did her captain attempt to ascertain the amount of damage done or offer assistance after ascertaining that damage was done. The Galena sent an armed boat's crew to the offending gunboat, where the statement was made that a jamming of the tiller was the cause of the collision. The opinion was that it was a deliberate attempt to sink the released ship. The question is whether the scheme was originated by a higher authority than the captain of the gunboat.

The Galena's officers met the next day, when the demand for an investigation was made upon the Haytian Government. An indemnity of \$100,000 has been agreed on for the seizure of the Haytian Republic, and she will return to New York about February 1st. Admiral Luce has notified the Haytian Government that he considers the blockade of all the northern ports voluntarily raised, because of the desertion of their post by all of the Haytian blockading squadron. He wrote Secretary Whitney that, in case of the illegal seizure of any other American vessels, he would "demand their release at the cannon's mouth."

Legitimate continues to arrest alleged conspirators. No organized conspiracy seems to have existed, only individual dissatisfaction. Hyppolite remains encamped twenty miles from Port au Prince, awaiting the overthrow of Legitimé by his own people, and the peaceful surrender of the city. By not using force, he wishes to win the approval of the southern department in his candidacy for President. Admiral Luce has telegraphed for two more ships.

### Some Serious Charges.

New York, Jan. 18.—The Cincinnati Inquirer published on Tuesday a dispatch from Washington, which stated on the alleged authority of Commodore Arthur P. Bateman of this city, that three days before the recent election, Thomas C. Platt demanded and received \$150,000, for the use of which, no accounting was to be demanded. After the election Platt was reported to have said that he used the money to defray the expenses of Coogan's campaign. The Inquirer's correspondent further said that before the election, Platt offered the office of Secretary of the Interior to the Pacific Railroad corporation for \$300,000, conditional upon Harrison's election. According to the Inquirer, when Bateman was in Indianapolis lately, he laid these charges before Harrison. Yesterday Platt wrote a sharp note to Bateman, asking if, in the interview containing these "malicious slanders," he was correctly reported. Bateman replied that about one quarter of the interview was correct, and the balance was drawn down from imagination. Bateman adds: "This story about the Interior Department has been current gossip for some time, but it is unnecessary for me to say that I never believed it." Platt says he would like to know which quarter of the interview Bateman stands by.

### A Heavy Shortage.

PITTSBURGH, Jan. 18.—It is alleged that Henry F. Voigt was arrested last night for misappropriating the funds of the defunct Farmers & Mechanics Bank, to the amount of over \$200,000. He was the cashier for nineteen years, and resigned last Spring to go into other business, and the bank failed in September. The arrest was made in the strength of a report by an expert accountant. The investigation is still incomplete. It is thought others are implicated.

### Report Denied.

PERMID, Col., Jan. 18.—The sensational reports sent out to the Eastern press that this city is overrun with small-pox is positively untrue. Not a single case has been reported by the Board of Health up to this date.

## Congressional Proceedings.

WASHINGTON, Jan. 18.—SENATE.—The President's message returning without his approval, a bill for the relief of William R. Wheaton and Charles H. Chamberlain, Register and Receiver of the Land Office at San Francisco prior to 1877, to pay them the salaries of two clerks to the amount of 3,800, was received and referred to the Committee on Public Lands.

The Senate resumed the consideration of the tariff bill, the pending question being an amendment reported from the Finance Committee, allowing a bounty of one cent per pound on sugar from beets, sorghum and sugarcane grown in the United States. Reagan opposed the amendment and expressed surprise that a bounty was not extended to maple sugar.

The Senate and House passed the sugar bounty section of the tariff bill—27 to 23. Payne of Ohio, voted in the affirmative with the Republicans, and Quay of Pennsylvania, with the Democrats, against it.

HOUSE.—In the House this morning, the consideration of the Territory bills was resumed, the pending question being on Macdonald's substitute for the Springer omnibus bill, which itself is a substitute for the Senate Dakota bill. The House proceeded immediately to vote upon the Macdonald substitute, which had never been read, but which embodies the main features of the omnibus bill, except that it provides for the immediate admission of south Dakota. The substitute was rejected. Yeas, 117; nays, 122.

McDonald and Tarnsey were the only Democrats joining in the solid Republican vote in favor of the proposition.

Springer then offered an amendment to the Omnibus bill, looking to a re-submission of the Sioux Falls Constitution of 1885, in case the Territory is divided. Mr. Springer demanded the previous question on the pending amendments and third reading of the bill.

The Republicans demanded further time for debate, but Springer was obstinate, but finally agreed to allow one hour.

Randall declared that the Territorial bills were taking up the time due the appropriation bills, and the edit, "Don't vote," was meant for the leaving of the House without a quorum. Springer then withdrew his demand for the previous question, and the discussion was resumed.

After some political sparring between Springer and Warner, Struble of Iowa read a letter written by Springer to Governor Ross of New Mexico, asking him to secure memorials for the admission of that Territory, and forward them to Washington. He read this, he said, to contrast Mr. Springer's friendliness to New Mexico, whose Legislature has never petitioned for admission, with his unfriendliness to Dakota. Springer replied that the Republican Legislature of New Mexico had tendered a vote of thanks to delegate Joseph and himself for their assistance to that Territory. Perkins of Kansas moved to amend Springer's amendment, by providing that if the Sioux Falls constitution be ratified by the people of South Dakota that the President shall issue his proclamation declaring the State of South Dakota admitted into the Union.

The House agreed to Springer's Omnibus bill, as a substitute for the Senate bill, for the admission of south Dakota. Yeas, 133; nays, 120.

Springer's amendment, as amended, was agreed to. A similar provision relative to the admission of Montana, was embodied in the substitute, upon the motion of Toole of Montana.

### Wool Manufacturers and Wool Growers.

WASHINGTON, Jan. 18.—The Senate Sub-Committee on Finance spent four hours to-day listening to the opposing claims of the wool-growers and wool manufacturers, on changes in the tariff on wool. The impression prevails that the committee will ask a reduction in the commoner grades of wool, from eleven cents to ten.

The President has approved the Act to provide arms, ammunition, etc., for the militia of Oregon; an Act to provide stores for the militia of Montana, and an Act amending the postal laws in regard to the special delivery of letters.

### Inauguration Preparations.

WASHINGTON, Jan. 18.—Governor Beaver of Pennsylvania, Chief Marshall of the inaugural procession, has issued an order, calling on all organizations desiring to participate to notify his headquarters before February 20th. Civic orders of less than fifty in number will not be permitted in line, or with improper costumes or equipments.

General Swain, before the Army Retiring Board this afternoon, requested to be allowed to make a statement to the Board alone, so the doors were closed and the spectators excluded.

### A False Report.

DENVER, Col., Jan. 18.—The reports published in the East that the people are fleeing from this city because of the smallpox epidemic, and that there are now from seven to eight hundred cases, are false. From forty to fifty cases have been reported at the Health Office up to this date, which is not greater than usual at this season of the year. The cases are very mild, and only three deaths so far.

### Being Brought Home.

WASHINGTON, Jan. 18.—The Department of State has received a telegram from Consul Allen at Kingston, Jamaica, that the United States steamer Ossipee, arrived there to-day with the Haytian Republic.

### Reported Missing.

LONDON, Jan. 18.—The British bark Sibbel, 1,100 tons burden, which left June 15th for Rangoon, is posted at Lloyd's as missing. She carried a crew of twenty men.

A Good Show.

Johnson Sides blew into the Gazette office to-day with the information that the "Bannock boys" were to give a "grand show" at Wadsworth next Tuesday night. Johnson thought that "Mr. Pipe" should negotiate for the "boys" to come here, for they give a first-class show, Johnson says. The play will represent the time that the Bannock broke away from the Nez Percés reservation, and were pursued and captured by General Howard.

The Leavitts.

The M. B. Leavitt combination will be here on the 23d inst. The Examiner says of them:

M. B. Leavitt's holiday company was greeted at the Bush-street Theatre last night by a large audience. His "Grand European Novelists" are very entertaining. Among those already known here is Duncan, the ventriloquist, who appeared here with Emerson's Minstrels four years ago. He was recognized at once by the audience, and his and his little figures made amusement for every one who looked and listened.

The real novelty of the evening's entertainment was Jules Keller—phenomenon in his way. Not having the use of his lower limbs, he has so cultivated his arms and hands that it seems second nature for him to run, jump, and do all manner of extraordinary feats with these limbs and extraneous limbs.

A Dig in the ribs.

If on the right side and lower part of the diaphragm, though playfully meant and delivered, is calculated to evoke profanity from a chapsy whose liver is out of order. When that region is sore and congested, pokes seem fiendish. Look at a man's countenance ere you prod him under the ribs. If his skin and muscles are inflamed, you may infer also that his tongue is furred, his breath apt to sour, that he has pains not only beneath his ribs, but also under the right shoulder blade, also that his bowels are irregular and his digestion impaired. Instead of making a jocund demonstration on his ribs, recommend him to take, and steadily persist in taking, Hostetter's Stomach Bitters, the finest antacid and alternative medicine extant. Incomparable is it, also, for dyspepsia, rheumatism, nervousness, kidney trouble, and liver and ague.

Peter R. Kenrick, the archbishop, is 82.

Epech.

The transition from long, lingering and painful sickness to robust health marks an epoch in the life of the individual. If you are troubled with any disease of the Kidneys or Liver or Stomach, of long or short standing, you will surely find relief by the use of Electric Bitters. Sold at 50c and \$1 per bottle at Hodgkinson's drug store.

Iccatulus Dollinger, the theologian, is 89.
